All: Attached is a revised tolling agreement concerning the Wallace Yard and CdA Basin, incorporating comments from Gail and Craig, and including both a redline/strikeout version and a clean signature copy if there are no other necessary changes.

The major substantive change is the definition of "Tolled Claims," which certainly should have been included before and is now identical to the definition incorporated in the tolling agreements recently sent out to all the other so-called de minimis parties for the CdA Basin.

Please let me know if there are any final changes needed to the signature blocks or anything else. Otherwise, please have this agreement signed on behalf of your clients, return a signed pdf version to me, and have the original signature sent to me by mail. I will return fully signed versions to each of you in return.

Thank you.

Cliff Villa
